## BIOGRAPHICAL SKETCH

Cheryl J. Craig, Ph.D., is a Professor, Chair of Technology & Teacher Education, and the Houston Endowment Endowed Chair of Urban Education in the Department of Teaching, Learning and Culture at Texas A&M University (TAMU). She also directs the USTAR teacher residency program. Her empirical research is situated at the intersection where teaching & teacher education/curriculum meet. Using narrative inquiry, she conducts research with preservice and in-service teachers on campuses typically serving high poverty children of color at risk of school failure. Her research centers on the influence of various reform agendas on teachers' knowing, doing and being, and the unintended consequences that reforms and policies may have on student learning. Craig's research program is internationally renowned because (1) it rigorously addresses teaching/teacher education; (2) has a strong conceptual base; (3) involves both curriculum and teaching; and (4) uses an innovative methodology. Cheryl J. Craig has authored 11 research handbook chapters; she is a regular contributor to 20+ Web of Science journals. Her book, *Narrative Inquiries of School Reform*, was published in 2003 (Information Age Publishing). She has 5 other books in preparation or in press. Craig is an Executive Editor of *Teachers and Teaching: Theory and Practice* (SSCI journal), Executive Editor of *Teaching and Teacher Education* (SSCI journal) and an Associate Editor of *Frontiers of Teacher Education*. She is also on the editorial review boards of *Reflective Practice* (SSCI journal), the Sense Book Research in Education Series and the Emerald Book Series Advances in Research on Teaching (SSCI publication) in addition to 2 Brill Series of books. In addition, she has co-edited 14 volumes in book series published by Roman & Littlefield, Routledge, Emerald Publishing and Oxford University Press. She has delivered keynote addresses internationally (i.e., Chile, India, Turkey, South Africa) and has been named a Foreign Expert Scholar at East China Normal University (Shanghai) and an Honorary Visiting Professor at Northeast Normal University (Changchun). In 2010, she received the University of Houston's Alumni Association Distinguished Service Award and the College of Education's Distinguished Career Award. Cheryl J. Craig is a Past-President of the American Association of Teaching and Curriculum (2005), a Past Chair of the Narrative Research Special Interest Group (SIG) (2009) and a Past Chair of the Portfolios in Teaching and Teacher Education SIG (2002-2005) of the American Educational Research Association (AERA). She is the current Chair of AERA's Lives of Teachers SIG. From 2009-2015, Cheryl J. Craig served as the Secretary of the International Study Association on Teachers and Teaching (ISATT), expanding the organization's reach from 24 to 45 countries. She received a Literati Network Award of Excellence (UK) in 2011 for a chapter she authored and Outstanding AERA Article Awards in 2009 and 2014. In 2011, she was named an AERA Fellow, the highest recognition possible in her field. In 2012, she was bestowed her field's second distinguished honor: AERA's Division B (Curriculum) Lifetime Achievement Award. In 2013, Craig received ISATT's Outstanding Article award, which was determined by reviewers from six continents. Craig's other conferred honors include the President's Award from the American Association of Teacher Educators (2014), AERA's prestigious Michael Huberman Award (2015), and a 2016 Wall of Fame Award, the highest honor granted by her Canadian undergraduate university. In 2018, she earned a Mentorship Award (CEHD) and in 2019, a third Outstanding Article Award (AERA) and an Outstanding New Employee Award (TAMU). In 2019, she received ISATT's highly respected ST<sup>2</sup>AR Award for Exemplary Contributions (Research, Teaching, Service) in the International Field of Teaching and Teacher Education, which is the most distinguished international prize she could receive. It, along with Craig's AERA fellowship, make her one of the most honored professors in the field.

### Student Comments

1. I want to learn more about the narrative inquiry process works. This is a wonderful class that should be taught every semester.

2. Dr. Craig is an amazing graduate professor and mentor. This was my most favorite graduate level class. I feel that Dr. Craig's teaching has showed me a passion for a research methodology I hadn't even heard of prior to this year. I will most definitely take more courses from her! She is always supportive and timely with emails and helping her students.

3. I adore Dr. Craig. She does magic. Her classes have made me much more comfortable with the concept of studying education.

4. This was a very effective course and I hope Narrative Inquiry II is taught in the Spring 2019 semester as suggested. It is vital to have such upper level qualitative methods courses in order to create well-rounded researchers.

5. Dr. Craig is a very effective instructor. As doctoral students, she makes sure that assignments not only inform and prepare us in the topic area but also that they can be adapted to benefit us in our research/dissertation work.

6. Dr. Craig is a wonderful instructor who shared so much with me and my colleagues/classmates.

7. I loved the class and Dr. Craig is amazing!! Not only was the content (Narrative Inquiry) useful for my research methods/methodology, Dr. Craig inspired and motivated me to reach for my very best. In such a competitive profession Dr. Craig encouraged us. She said that we too could be internationally known and respected!! She affirmed our strengths which was refreshing!

Item Comments

Comments from Students:

- The materials in the course were very vital to education and teacher development.
- I had the opportunity to engage in new learning experiences in this class.
- The course developed a community of learners.
- This course allowed me to connect information and/or experiences to a career in education.

Comments from Students:

- We were always able to support each other and share opinions in this seminar type class.
- The course assessment (i.e., papers, exams, projects, portfolios, and/or field experiences) informed my learning in this course.
- Comments from Students:
- I was able to work on my own, related teacher education projects and share the writing in class.
- I was stimulated to think and be reflective as a result of this course.
- I received timely and informative feedback on the course assessments.
- My learning was enhanced by the use of educational materials in this course (i.e., textbooks, media, handouts, films, Webboard, technology, and Powerpoint).
- Overall, I developed deeper insights and understanding about the course material.

Essay Questions on the Appraisal:

1. I truly appreciate the way Dr. Craig allows and creates for assignments that are cohesive with my ongoing projects and dissertation. I feel that every graduate course needs to allow for this and Dr. Craig sets that example in every class she teaches!
2. The course was very enjoyable. I would suggest that it should be a required course for all teachers and teacher educators. The room, seminar style of instruction where we were all able to speak, see and participate was very effective. Oftentimes our courses in TLAC are in large classrooms, which is not conducive to graduate level learning and conversations. This room was ideal and supported our learning. Dr. Craig is also a very knowledgeable professor who brings both national and international perspectives on teacher education, which is vital if we are to learn from each other's educational efforts globally.

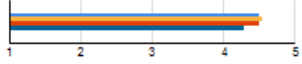

3. Readings and discussion were very helpful to my understanding of the course and the larger domain of teacher education. The course assignments and writings were not well-defined, which required us to make the assignments work for us as individuals.
4. Dr. Craig brings a wealth of knowledge and global experience to the learning experience. I appreciate how she allows students to take ownership of their learning and she supports and provides guidance to the learning paths we take within the context of the course.

#### **4. Sample Student Comments**

Comment #1

Extremely encouraging and supportive of students' growth, learning, and research.

Comment #2

This has been the most useful course during my tenure as a doctoral student. I appreciate the process-oriented approach to writing. I believe breaking the class into small groups has proven advantageous. And certainly Dr. Craig's feedback and advice about writing has been insightful. I wish more doctoral courses focused explicitly on scholarly activity, as this one does.

Comment #3

Dr, Craig creates the educational space in which we can grow as researchers in a way that aligns with our specific learning styles, creative process and research passions!!

Comment #4

Great class and atmosphere for furthering your own reflection and learning.

Comment #5

I like Dr. Craig's teaching. She is indeed a jewel. She should be the Dean.

Comment #6

I love this class because the curriculum theory was intense and we were on our game and her game was outstanding.

Comment #7

I have taken several courses with Dr. Craig, and this was her absolute finest.

Comment #8

Profoundly important class ~ It made quite an impact and quite a difference. Bravo! My favorite class ever.

Comment #9

It has been an honor to have the opportunity to learn from an individual with her credentials and passions.

Comment #10

I felt that this course is very important. The assignments are very meaningful to those wishing to teach at our university.

Comment #11

This class allowed me to answer a lot of questions regarding anything related to being a doctoral student.

Comment #12

Dr. Craig demonstrates passion and enthusiasm for her students and her teaching—she engages, challenges, and inspires at all levels. Her kind of knowledge in curriculum theory is extensive; she readily shares her insights.

Comment # 13

Dr. Craig is extremely supportive of students' efforts and gives constructive criticism in a non-threatening manner. I learned so much in this class about being a doctoral student. Fantastic teacher!

Comment # 14

Very helpful course. I enjoyed it and learned very much. Dr. Craig is very approachable and knowledgeable.
